Jiangsu Konsung Bio Medical Science and Technology Co.,Ltd

Why selecting Konsung Urine Analyzer

- Practical** ----- Applicable to grassroots medical institutions on human urine chemical composition analysis
- Portable** ----- handheld, portable
- Accurate** ----- Imported sensors can ensure accuracy
- Personalization** ----- Provide supporting software, customizable software
- Handy** ----- Entity large key, easy to use
- Record** ----- Support for 1000 groups record review

Technical feature

Leucocytes (LEU)	Nitrite (NIT)		Urobilinogen (UBG)	Potential of Hydrogen (Ph)
Protein (PRO)	Blood (BLD)	Specific Gravity (SG)	Ketones (KET)	Bilirubine (BIL)
Glucose (GLU)	Vitamin C (VC)	Calcium (Ca)	Creatinine (Cr)	Microalbumin (MA)

Optional accessories

- External thermal printer
- Support APP on mobile phone

Advantage

- Data Interfaces: USB2.0, Bluetooth 4.0
- Imported cold light source, imported photosensitive components
- Reflectance repeatability and stability: <1%
- Display: LCD display
- Storage: can store 1000 results
- Adapter: 5V DC/2A

Support for APP

Support external thermal printer
